

Student Information Sharing - Parent/Guardian Side

This information is for the other side of the Information Sharing, the person who the student shares the information with.

Step-by-step guide

Acquiring access

1. Have your student share the information with you (this process is defined in a separate article).
2. You will receive an email with a link to the Cornell page and the secure site once your student has shared their information with you.
3. The second part of the email contains your shared email, password and a call in pin.
4. The call in pin is for a situation where you must call the IT department or the school for access to your account over the phone.
5. With these, you will be able to access any of the information your student has shared with you.
